Art Unit: 2185

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1, drawn to a hierarchy of logic configuration storage, classified in class 711, subclass 118.
- II. Claims 2-4, drawn to a method of configuration of an array of computing and/or interconnect elements, classified in class 711, subclass 154.
- III. Claims 5-7, drawn to a reconfigurable computing chip, classified in class 711, subclass 108.
- IV. Claims 8-10, drawn to a method of configuration management, classified in class 713, subclass 1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each of the inventions I, II, III, or IV has separate utility such that any one of these inventions does not require the use of the other inventions to be distinct; however, any combination of the inventions is usable as subcombinations together in a single combination. See MPEP § 806.05(d).

Art Unit: 2185

3. Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, have acquired a separate status in the art because of their recognized divergent subject matter, and the search required for any one of the Groups is not required for any other of the Groups, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this restriction requirement, to be complete, must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
